The City of Roswell does not attest to the capabilities of the listed individuals, other than they have successfully completed a specialized course in the testing and/or repair of backflow prevention assemblies at an accredited training facility. This listing is provided as a public service and is not an endorsement of any individual.

In compliance with the State of Georgia Plumbing Code, only licensed master plumbers are authorized to repair backflow prevention assemblies. In addition to these requirements, the City of Roswell will only allow licensed master plumbers that have completed a specialized course in the repair of backflow prevention assemblies to make necessary repairs.
