

## **City of Roswell Improves Open Records Request Process for the Public**

Roswell, Ga. (Oct. 10, 2018) – The City of Roswell is making transparent government more easily available for the public. Requestors of public information will have the option of submitting Open Records Requests through a user-friendly, online form, starting Monday, Oct. 15, 2018.

Previously, an individual wanting to submit an Open Records Request would have to download and fill out a paper form and then submit it physically or electronically to the City Clerk's office. While this existing method of submitting requests will still be available, the City of Roswell is excited to be able to offer a more convenient option.

"The City's new system will help streamline the Open Records Request process for citizens and improve efficiencies for staff—saving time, money and resources," said Marlee Press, City Clerk.

The new system, called JustFOIA, was designed specifically by government technology solutions company MCCi to help manage and track public records requests and is now used by local government agencies throughout the country.

**The new online form will be available Oct. 15 at [www.roswellgov.com/OpenRecords](http://www.roswellgov.com/OpenRecords).**
